PatientKeeper Quick guide for iOS devices

Patients Tab

When logged in, the patient List is shown. You will be able to create and share your own list, find and favorite another provider’s patient list.

Messages Tab

Allows you to send secure messages between providers and receive valuable information about your patients.
**Settings Tab**

Gives you general information about the application, as well as syncing information and logging out.

- **Messaging**
  - Tap to add a call back number
- **Sync Now**
  - Last synced: 3 minutes ago
  - Tap to synchronize data from Healthbridge
- **Clear Data**
- **Log Out**
  - Tap to Log out of PatientKeeper

**Modules**

Selecting a patient takes you to the Modules page.

- **Close**
  - Tap to select a different patient
- **Allergies**
- **Communication**
- **Lab Results**
- **Medications**
- **Patient Details**
- **Problem List**
- **Sign-Out**
  - Tap to view sign-out notes and tasks for all patients
**Sign-Out**

The PatientKeeper Sign-Out Summary allows providers to view Sign-Out notes and tasks for all patients on a specific patient list. Choose a patient and then tap on Sign-Out to open the Sign-Out module for editing.

- **Tap to edit the scratch-pad for the patient**
- **Select your department in order to document in the scratch-pad section.** If you’re not part of the selected department, you can only view what is documented in the scratchpad.
- **Document your sign-out notes and tasks**
